

# LEDIFY LAUDEVALAISIN

This set consists of four (4) interconnected LAUDEVALAISIN, and benches and Stairs are lightened up with KiuasLED.

**LAUDEVALAISIN** is a LED lamp for the sauna, which creates a smooth and pleasant light in the sauna. The light output is 4.8W / m and is ideal for cleaning and general lighting in the sauna. The luminaire is manufactured individually according to the desired dimensions in Raisio Finland.

**LEDIFY LAUDEVALAISIN = BENCH LIGHT** is a single profile or set of several profiles. The LAUDEVALAISIN luminaire is mounted in the sauna, eg. placed at the front or rear edge of the bench (giving light downwards), fastened to the wall under the benches, behind the backrest giving light up or down.

One or more Laudevalaisin LED profiles can be installed in the sauna; the whole set can consist several different sized profiles which are connected with each other by quick couplings. LAUDEVALAISIN cable is heat tolerant up to +180°C. There is also 5m cable between the driver and LAUDEVALAISIN. The driver is to be placed in a dry room or if installed in sauna under 1m height in a watertight housing. (All electrical work should be done by an authorized installer).

This set consists of one LAUDEVALAISIN behind the bench (light upwards) and SaunaLED series with 6 LEDs in the ceiling.

**LEDIFY LAUDEVLAISIN** is a ready-to-install assembly that includes

- Aluminum profile and diffusor, end caps and fasteners (screws not included)
- LED light source (4.8W / m, 12V, IP67, 3000K or 4000K)
- 5m long heat-resistant connection cable (+ 180 ° C) between the profile and transformer
- Quick connectors on heat-resistant connection cable
- Transformer 12VDC IP20

#### **DIMMING OF THE LAUDEVLAISIN:**

Secondary side 12V

- Wireless dimming from the secondary side 241123 (small black remote control + receiver, also suitable for use after a wall switch)
- Wireless Dimming SLO10 + UHO 1224 (White Cordless Wall Switch + Receiver Requires Continuous Electricity)

Primary side 230V

- TRIAC dimming, package includes TRIAC adjustable driver 30W (The Schneider Exxact dimmer device 2622351 is sold separately)

The secondary side dimming is pre-installed by us, also the TRIAC driver for primary dimming, please indicate your wishes at the time of ordering. Price for dimming is 40€, the price is added to the final price. Eg (the overall dimension of benches 3,2m \* price 37 €) + dimming 40 € = 158,40 € VAT% We charge the freight according to the current UPS pricing, about 35€.

Send us the floor plan of the sauna to get a finished plan, we just need precise dimensions. Delivery time approx. 2 weeks by order, the order is always binding.
